Farewell Party For Mrs. A. Lasell

A gathering of the congregation of St. Thomas church was held in the Parish Hall on Sunday last after the evening service, to bid Godspeed to Mrs. A. Lasell, who is moving to the coast.

The Rector, Rev. L. A. Braint who acted as chairman, told the assembly of Mrs. Lasell's work and worship in the church over a period of many years. As Sunday School and Bible Class teacher, as an active W.A. member and in many other ways. Mrs. Lasell had proved a valuable member of Christ's church.

The Rector's warden, Mr. H. Smart in thanking Mrs. Lasell for her devotion and work pointed out her great value to the Wainwright community. He also expressed the hope that our younger people follow such an inspiring example.

Mr. C. G. Forryan on behalf of the congregation then presented the honouree guest with a table lamp accompanied by an autograph album.

In accepting this token of appreciation and affection, Mrs. Lasell thanked the people and said that she did not feel that she was being separated by going away. In simple words she said that the same sun shone over us by day, the same moon by night. Each Sunday we worshipped in the same way using the beautiful liturgy of the Anglican church. Above all it was the same God whom we worshipped wherever we were.

After refreshments served by members of the W.A., the meeting closed with the singing of the hymn, "The Day Thou Gavest" and the Benediction.

Bank of Montreal Crop Report No. 13

Harvesting has been resumed in many parts of Saskatchewan but has again been delayed temporarily in Alberta by light rains, while in Manitoba continued unsettled weather is seriously retarding progress. Early threshing wheat has graded satisfactorily, but it is feared yields and grades in some areas, particularly of Manitoba, will be affected by the recent wet weather. Heavy frosts in parts of northern Saskatchewan will result in the lowering of the quality of the grain in that area. The first estimate by the Dominion Bureau of Statistics of wheat production in the Prairie Provinces is 428,000,000 bushels and of coarse grains 594,675,000 bushels, as compared with the final estimate of 277,000,000 and 601,870,000 bushels respectively in 1943.

Harvesting in Alberta has again been delayed temporarily by light rains. Cutting is nearing completion and threshing is well under way. Good grades of wheat are being obtained with No. 2 Northern predominating.

MOTHER, DAD & FAMILY

JOE CITIZEN SAYS

Some think the war is nearly through some take a quite contrary view. Me, I prefer to wait and see, but with one viewpoint I agree, and that is we must carry on until the need for help is gone.

Suppose the fighting all was done the peace would still have to be won, and that, if I am seeing right, won't be a job done overnight.

No, sir, we won't for many a day from war-time rules get clear away. War's cost has certainly been steep and lasting peace will not come cheap. So dreams of good times let us quit and to our country's needs submit. Let's lend our money anyhow—that's what we're asked to do right now, and, personally, I just plan to lay in every bond I can.

SHOE STYLES

TO STEP UP

Bows, two-tone uppers, perforations, metal trimmings, long banned from women's shoes by the Wartime Prices and Trade Board may return with recent lifting of manufacturing restrictions, the Footwear Administrator, announces.

Style changes will look back to pre-war days, although after next January two completely new patterns may be introduced by manufacturers.

Men and boys will step out in new-styled footwear on the same plan, and will also be able to buy white shoes.

Restrictions on slippers and babies soft-soled shoes are also revoked.

BUTTER RATION IS OUT AGAIN

Butter coupons 80 and 81 will not become valid until October 12, instead of on October 5, the Wartime Prices and Trade Board announces. This means butter bought with coupons 78 and 79 on September 21 must last three weeks instead of two.

A further coupon postponement will take place in December with the valid date of coupons 88 and 89 put off until December 14.

This fourth cut in the butter ration this year is due to decline of butter stocks by 11,500,000 pounds below this time last year, the Board points out.

We don't need another movement in the nation but the nation on the move.

There's a new plan for our post-war homes—knock down all the walls between members of the family

A FAMILY RESPONSIBILITY

Canadian family living has under-
gone so many changes in the past
quarter century, that a stranger from
another world comparing domestic
life of 25 years ago with that of
today, would marvel at the revolu-
tion that has taken place.

The changes caused by technologi-
cal advancement, urbanization, war
the changed status of women, educa-
tion, security and living standards,
and altered attitudes toward mar-
riage on the part of too many people,
have had a profound effect on family
relationships. The patriarchal family
of a few years ago has all but dis-
appeared. The family has yielded
many of its former functions to the
state, the church, the school and
other institutions. There are those
who believe the family should give
up much of the influence it still has
over the lives of the young.

All this has been deeply disturbing
to parents who have seen the old-
established patterns disappear. Under
a crossfire of criticisms of family
inefficiencies, parents are asking
themselves what they can and should
do, to assure their offspring of a full
and rich life.

The primary responsibility for the
protection of children against physical
and spiritual ills still rests with
the family. The obligation of parents
to instill sound attitudes in young
children is being stressed as part
of the campaign against venereal dis-
ease. The obligation of parents to
protect their children against physical
diseases which are preventable is
being emphasized once again by the
Health League of Canada, sponsored
National Immunization Week in sup-
port of the public-health programs.

The family may have lost much of
its authority, but it has lost
nothing which can prevent it from
having very young children immunized
against such deadly diseases as
whooping cough, diphtheria, scarlet
fever, and smallpox. Mothers and
fathers have an obligation to see that
children are protected against these
diseases from their sixth month on.
Failure to meet that responsibility
will strengthen the stand of those
who consider that parents should
have little or no say about the lives
of even very young children.

Mr. Osborne did not believe that
the expected collapse of Germany
would at all lessen the need for the
greatest financial effort of which
Canadians are capable. Should chaos
break out in Germany, an immense
army of occupation would be required,
and former enemy countries
would have to be similarly patrolled.
But the main reason was that the
end of the European phase of the
war would immediately see intensi-
fication of the war in the Pacific,
beginning with the transportation of
millions of men, and likewise mil-
lions of tons of equipment and sup-
plies half way around the world. Any
feeling of complacency at this time
due to the European situation would
be most detrimental to our war ef-
fort, and if given effect to, would
undoubtedly unnecessarily prolong
the war.

Farm Notes

FATTENING POULTRY TO
GET BEST RESULTS

Except in cases of capons, some
degree of fattening or finishing of
birds for market is necessary to pro-
duce a carcass which will grade well
and return the best price, says H. S.
Gutteridge, Poultry Division, Central
Experimental Farm, Ottawa. Capons
if vigorous and healthy, will usually
be fat enough when taken off range to
grade well with little, if any, fin-
ishing. Two facts should in them-
selves commend the practice of fat-
tening for market: the weight gained
during fattening is the most economi-
cal of any gain made during the
whole growing period and that the
premium paid for the improved grade
of the market bird is paid not only
upon the economically produced gain
while fattening but upon the whole
weight of the bird.

Crate fattening and pen fattening
are the principal methods of fat-
tening. Fattening in crates is best be-
cause it produces more gain and fat
in a shorter time and softens the
flesh producing a very tender carcass.
Pen fattening is the best substitute
but takes a longer time to produce
the same effect and is less economi-
cal. Under satisfactory conditions
two weeks of fattening should be suf-
ficient to produce top grade birds
with crates, while fattening in pens
takes from three to four weeks.

If possible, skim milk or butter-
milk should be used to mix fattening
feeds. Unwatered whey is also good.
Oat groats, not too finely ground,
ground heavy oats from which most
of the hulls have been sifted or
ground corn are the most efficient of
the common grains for fattening pur-
poses. Buckwheat, wheat, oats (with
hulls) and barley are next best, the
respective merit being in the order
stated. A mixture of the best of these
grains, wet-mixed as stated will give
satisfaction. If 7 to 10 per cent of
meat meal is added to the mixture
gains considerably in excess of the
additional cost of the meat meal
should be made, but where not pos-
sible the grain and milk mixture
should be sufficient.

Birds should be starved for 18 to
24 hours before fattening and flush-
ed with epsom salts (½ lb. per 100
mature birds). They should have
water to drink between feedings.
Feeds should be mixed to a consis-
tency which will just pour and be
given twice daily in such quantity
that they will clean it up in twenty
minutes, any residue being removed.
The birds should be starved from 10
to 14 hours before killing and chilled
as quickly as possible after killing.

HEATH

Mrs. Morton Herbert celebrated
her birthday on Sunday by having a
few friends in for tea.

Mrs. Mel Dixon has received an-
other shipment of blankets from Win-
nipeg woollen mills and is anxious to
get them distributed before leaving
for Sask.

On walking through his field one
day last week Mr. H. Bouck had a
pleasant surprise when he found
about 15 acres of his grain stocked
and the following brief note attached
to a pole in the field.

"Hello Farmer

This was done by some lonesome
soldiers who were out for pleasure.

Sons of Sask. Farmers
We thank you"

This work was done in 15 minutes
by 16 men."

"They Always Get Their Man" is the common slogan used, in referring to Canada's world-famous Royal Canadian Mounted Police. In carrying out the text of the slogan the R.C.M.P. often face danger, privation adventure and thrilling experiences. "Men in Scarlet" heard over C.J.C.A. each Monday, Wednesday and Friday at five o'clock, is a quarter-hour program giving the listeners some of the most thrilling highlights of the numerous experiences of the R.C.M.P. encountered during the many decades they have played a leading role in attending to law and order in the barren wastes of Canada's Great Northwest.
